A bloody conflict in South Africa between the Boers and British may take place any day. The Transvaal people know they have nothing to gain by fighting, but they are not willing to submit tamely. The Laws of Riot Cases

Darien, Ga., Sept. 6.—The case of the state against Henry Delegal, charged with assault, was called by Judge Harkrath this morning. Considerable trouble is being found in securing an impartial jury, only nine having been secured by 1 o'clock out of 48.

The sheriff is summoning every available man and it is thought the trial will commence after dinner today and be concluded today. This will end the special term of court, as other trials have all been tried and 22 of 35 convicted, with one stricken.

## How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pounds; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

## McKINLEYIST RELEASED.

The result of the election in Missouri is a fair index of western sentiment against Mr. McKinley's imperialistic policy. Six years ago the Republicans carried the districts by a good majority, and no efforts or aids, financial and otherwise, were spared to elect the administration candidate in the last contest. The Democrats went into the fight with this simple anti-expansion declaration: "we are sincerely opposed to the militarism and imperialism of President McKinley." and they were sustained by a splendid majority of over 300.

Upon any other issue the Republicans would have done much better for we do not think that Blaine is his plainest days ever carried the district by a larger majority. The Democratic candidate was a man of no particular ability, popularity or influence and he won the nomination in the convention over several candidates who had long aspirated to a seat in congress, and he did not receive their support in a very warm and enthusiastic manner. But he did not need it; his success was already assured when his opponent was stamping in favor of militarism, imperialism and expansion.

Strictly speaking the result of this election may not be considered so much a Democratic triumph as a rebuke to McKinleyism, for no doubt there were many Republicans who followed the star at home policy, and have adhered to their country's Democratic platform. The leading Republicans failed to bring out their vote. A day or two before the election the St. Louis Globe Democrat, the leading administrative organ of the West said: "With the whole country warning the result of a nation to converge on President Phillips' policy, the failure of a Republican to go to the polls is practically a vote for the Democrat's opposition to re-elect the President, or to re-enter in Boston."

The main writing on the wall, and the main lesson to be learned by the foreign war politicians is that the burdens they must carry in the campaign, instead of being a hindrance, may be turned to their advantage.
